

# STANDARD MAPPING GUIDE

*Section & Subsection Hierarchy*

**David Hajage**

2026-02-04

|     |                         |   |
|-----|-------------------------|---|
| 1   | Introduction .....      | 3 |
| 1.1 | Description .....       | 4 |
| 1.2 | Roadmap .....           | 6 |
| 2   | Technical Details ..... | 8 |
| 2.1 | Implementation .....    | 9 |

# 1

## INTRODUCTION

1.1 Description

1.2 Roadmap

# 1

## INTRODUCTION

**1.1 Description**

1.2 Roadmap

In this configuration:

- Heading level 1 (=) acts as a **Section**.
- Heading level 2 (==) acts as a **Subsection**.

# 1

## INTRODUCTION

1.1 Description

**1.2 Roadmap**

Section transitions will display a “Roadmap” (mini table of contents) listing all the subsections within that section.

Subsections (Level 2) are displayed in the roadmap of the parent section transition slide.

They also appear in the breadcrumb at the bottom of the slide.

## TECHNICAL DETAILS

### 2.1 Implementation

# 2

## TECHNICAL DETAILS

### 2.1 Implementation

The numbering-format parameter controls how sections and subsections are numbered.

For example, numbering-format: "1.1" will produce:

- **1.** for the first section.
- **1.1** for the first subsection.

You can change it to "1.a" or "I.1" depending on your preferences.
